TABLE OF CONTENTS

Foreword ........................................................................................................................................... ix
About the Volume ................................................................................................................................. xi

Chapter 1: Isolated Low-Voltage DC-DC Converters

Chapter 2: Non-Isolated Converters

Chapter 3: Coupled Inductors

29 “Performance Improvements of Interleaving VRMs with Coupling Inductors,” Pit-Leong Wong, Peng Xu, Bo Yang, Fred C. Lee CPES Power Electronics Seminar, September 17-19, 2000, Blacksburg, VA, pp. 317-324.  211

Chapter 4: Two-Stage Conversion

40  “12V VR Efficiency Improvement Based on Two-Stage Approach and A Novel Gate Driver,” Yuancheng Ren, Ming Xu, Yu Meng, Fred C. Lee, IEEE Power Electronics Specialists Conference (PESC), Recife, Brazil, June 12 - 16, 2005, pp. 2635-2641.................................................. 290

Chapter 5: Design Considerations

<table>

| 51   | “Analysis of the Power Delivery Path From the 12V VR to The Microprocessor,” | Yuancheng Ren, Kaiwei Yao, Ming Xu, Fred C. Lee. | IEEE Transactions on Power Electronics, Vol. 19, No. 6, November 2004, pp. 1507-1514 |
| 52   | “Microprocessor Power Management Integration by VRB-CPU Approach,”   | Xin Zhang, Alex Q. Huang, Nick X. Sun, Fred C. Lee. | CPES Power Electronics Seminar, April 27-29, 2003, Blacksburg, VA, pp. 9-14 |

Chapter 6: Modeling and Control
